QUESTION – 1

Interline and codeshare
- Other recognizable features.

Please explain in detail what Recognizable Options?

CLARIFICATION

Is there any other option that would help us identify a segment as interline or a codeshare. There could be systems that may have an option that is unique

QUESTION – 2

Departure Control System
- DCS Interface requirements - The system should be able to send standard IATA DCS name lists (PNL/ADL) to external DCS systems.

Need clarification, are we sending the PNL/ADL from the DCS to an external DCS?

CLARIFICATION

This is about the DCS interface where the PNL/ADL is sent from the RES Host and not from a DCS application.

QUESTION – 3

We have a single price for Initial Implementation Fee (IIF) for the migration of the PSS system, which includes a list of systems and services. There is no special row (s) in your table for this. Can we add rows for IIF and the list of the systems/services?

CLARIFICATION

Initial Implementation fee can be listed under one-time configuration cost column. For Drukair, one-time configuration and IIF is the same. In addition to the one-time configuration cost, if you have an extra IIF cost, it can be listed under ROW 31 under License – Product Cost.

QUESTION – 4

We have a single price for PB (Passenger Boarded) fee which includes a list of systems and services. There is no special row (s)/ columns in your table for this and the list - the order of the systems specified in your table does not allow us to specify the list of systems / services included in the PB Fee payment.

Can we add rows for PB Fee and the list of the systems/services included? Can we change the order of systems in your table?

CLARIFICATION

Price of the PB can be mentioned in the first row under Reservation and subsequently you can put a remark ("Included in PB") if the other system/service are within that single PB.

Sample

Sl.no	Service Name	Option Name	One-time Configuration Cost	US $ Charges Per PB Transaction

1. Core System				
1.	Reservation			**USD******
2.	Ticketing			**Include in PB**
3.	Ticketing	Financial Data: RET & ETLR files format		
4.	Weight Balance			**Include in PB**
5.	Departure Control System	Own Passenger Check in)		**Include in PB**
6.	APIS	(example for Singapore, India, Thailand, Dubai)		**Include in PB**

QUESTION – 5

There is "Minimum Monthly Fee" column in your Table" but there is no "Monthly Fee" column, these names have different meanings.
Can we add "Monthly Fee" column to the table?

CLARIFICATION

Apart from the PB charges and minimum monthly fee, if there is any additional monthly recurring fee, this can be added under ROW 31 under License – Product Cost.
